Stunning Multi Color Flames

The Fire & Ice Series features a vibrant blue, purple, rose or golden flame. Our innovative flame technology allows you to easily change the flame color by remote control. This line of contemporary style fireplaces comes in many popular sizes, ready to fit any space.

Zero Clearance, Insert, Wall-Mount/Built-in & Flush Mount models all feature a contemporary white glass surround and come standard with our unique Ice Media made up of three large glass nuggets with clear and blue diamond shaped fire glass. **NEW! Three black glass models are available: WM-BI-FI-48-5823-BLKGLS, WM-BI-FI-34-4423-BLKGLS and BI-FI-50-FLUSHMNT-BLKGLS.**

BI-50-DEEP & BI-72-DEEP are 12" in depth and feature the latest 'Dual Flame' technology for a truly dynamic and remarkably life like flame. These models offer a true clean face installation - allowing for drywall or finishing material built right to the glass. Perfect for locations where running costly gas lines and venting are not possible.

The DEEP models come standard with our unique Ice Media (BI-50-DEEP comes with three large glass nuggets and the BI-72-DEEP comes with six large glass nuggets), 6-piece log set and optional black surround in the box.

- Please note that the BI-50-DEEP & BI-72-DEEP are built-in only and can not be wall mounted.
- Surround back lighting is available in the WM-BI Series only.
- Please see the back page for the features on each of our wide variety of Fire & Ice Series models.
