

Tempest Torch

Electric Ignition

THE AWARD WINNING
TEMPEST TORCH™
BY TRAVIS INDUSTRIES

What's the Magic?

- Consumers can easily light numerous Tempest Torches with the flip of a switch!
- Electronic ignition allows installation of up to 25 Torches on a single 15 amp circuit from a single switch
- Can be used with remote control, programmable timer or SmartHome system.
- More Torches can be installed on a larger amperage circuit line.

Features:

- Comes with Torch Head, Stainless Steel Base, Glass, Control Module, Wire Harness and 12" Flex line and ball valve to connect gas inlet to the control module.

Note:

- **Weatherproof cover – do not use with Electric Ignition Tempest.**
